

Edmonton Trout Fishing Club

9562-83rd Street NW, Edmonton, Alberta T6C 3A1

Dear Community Members and Businesses,

Established in 1953, the Edmonton Trout Fishing Club (ETFC) is a community-based, volunteer-led, non-profit organization. For over a half century, the Club's members have provided their time, energy, enthusiasm, and resources for the betterment of fishing habitat, and of associated recreational fishing opportunities for families. The Club's objectives include fostering fly fishing and the art of fly tying, and promoting the appreciation, protection, sustainability and enhancement of Alberta's lakes, rivers, and recreational fishing resources.

We work to achieve these goals through a variety of local and provincial initiatives, and through our promotion and support of sound fishing practices and regulations. The Club is an active participant on the Alberta Fisheries Management Round Table that advises the provincial government on fisheries related matters. As one example of our work, the Club initiated the Muir Lake rehabilitation project, and successfully sought the collaboration and support of other local fishing organizations. The outcome of this project has been the establishment of a special regulation, sustainable local trout fishery which promotes catch and release practices, and provides better quality fishing opportunities within the broader Edmonton region.

To achieve our goals, we need resources beyond the time, energy and contributions of our members. The only way the Club is able to sustain its initiatives and programs is through the support and donations of local businesses as part of our fundraising work.

We are seeking your support. Donations of any kind are appreciated – from cash donations, to the provision of products or services needed by the Club in its work and operations, to the donation of products, services, gift cards, etc. that can be auctioned at our annual fundraising event. For 2012, the Auction is happening on April 17th. The generosity and community spirit of the businesses, organizations, or individuals who contribute to the success of our organization is recognized and communicated by the Club.

If you or your organization are willing to make a donation to support the Club, please contact the ETFC representative indicated below. Thanks for whatever assistance you are able to provide.

Your support is greatly appreciated,

Walter Harris,
President, Edmonton Trout Fishing Club
